Adam Brandenburger holds appointments at New York University as J.P. Valles Professor at the Stern School of Business, Distinguished Professor at the Tandon School of Engineering, Faculty Director of the NYU Shanghai Program on Creativity + Innovation, and Global Network Professor. He was a professor at Harvard Business School from 1987 to 2002. He received his B.A., M.Phil., and Ph.D. degrees from the University of Cambridge. Adam researches in the areas of game theory, information theory, and business strategy.

Appointments

2017-present

Global Network Professor, New York University

2016-present

Affiliated Faculty Member, NYU Shanghai

2014-present

Distinguished Professor, Tandon School of Engineering, New York University

2002-present

J.P. Valles Professor, Stern School of Business, New York University

1998-2002

Class of 1958 Professor, Harvard Business School

1996-1998

Professor, Harvard Business School

1992-1996

Associate Professor, Harvard Business School

1987-1992

Assistant Professor, Harvard Business School

Education

1986

Ph.D. in Economics, Churchill College, University of Cambridge

1982

M.Phil. in Economics with Distinction, Trinity College, University of Cambridge

1981

B.A. Double First in Natural Sciences and Economics, Queens' College, University of Cambridge

Teaching Experience

The Strategist (elective MBA and EMBA course, Stern School of Business; elective undergraduate course, NYU Shanghai; MS course, Stern-NYU Shanghai)
Creativity Considered (elective undergraduate course, NYU Shanghai)
Introduction to Game Theory (elective undergraduate course, NYU Shanghai)
The Project (elective MBA course, Stern School of Business)
Game Theory (elective MBA and EMBA course, Stern School of Business)
Business Strategy (core MBA course, Stern School of Business)
Changing the Game (elective MBA course, Harvard Business School)
Game Theory (doctoral course, Harvard Business School)
Seminar in Business Strategy (doctoral course, Harvard Business School)
Competition & Strategy (core MBA and executive course, Harvard Business School)
Engineering Sciences 201 (Faculty of Arts and Sciences, Harvard University)
Engineering Sciences 207 (Faculty of Arts and Sciences, Harvard University)
Managerial Economics (core MBA course, Harvard Business School)

Refereed Articles

Recent Invited Talks

- "What Does 'Distributed Consensus' Mean?" keynote talk at the Annual Conference of the CSIAM Activity Group on Financial Technology and Algorithms and the 2024 Academic Conference on Blockchain Finance and Digital Industry, Shandong University of Finance and Economics, September 2024.
- "Human and AI Creativity: A Case of Co-opetition," keynote talk at Stern in Shanghai, Shanghai, September 2024.
- "Symmetry, Contradiction, and Duality," invited remarks at the 2024 Utah Strategy Summit, Park City, August 2024.

“Event Valence and Subjective Probability,” invited talk at the 2024 Science of Decision Making (SDM) Conference, Hong Kong University of Science and Technology, June 2024.

“Agreement and Disagreement in a Non-Classical World,” invited talk at the 2023 Inaugural Science of Decision Making (SDM) Conference, Hong Kong University, June 2023.

“Quantum-Assisted Team Decision Problems: Theory and Applications,” at X - The Moonshot Factory, April 2023.

“Theory of Mind and Game Theory,” invited talk at AI, Blockchain, and Fintech Conference, United International College, Beijing Normal University-Hong Kong Baptist University, Zhuhai, April 2023.

“Agreement and Disagreement in a Non-Classical World,” invited talk at the 5th Workshop on Quantum Contextuality in Quantum Mechanics and Beyond, Czech Association of Scientific and Technological Societies, December 2022.

“Epistemic Game Theory,” invited talk at Behavioral Implications of Uncertainty in Macroeconomics Capstone Conference, University of Chicago, September 2022.

“Rethinking Strategy & Globalization: Celebrating Professor Ghemawat’s Contributions,” invited contribution, IESE, Barcelona, September 2022.

“Agreement and Disagreement in a Non-Classical World,” invited talk at the 30th European Workshop on Economic Theory, SGH Warsaw School of Economics, July 2022.

“Co-opetition,” keynote talk at Harvard Business Review China Annual Forum 2021, November 2021.

“Co-opetition,” keynote talk at ABRAS Brazil, September 2021.

“Using ‘Proof-of-Presence’ to Coordinate,” invited talk at Society for the Advancement of Economic Theory, Seoul, June 2021.

“Epistemic Game Theory,” NYU Neuroeconomics Summer School, NYU Shanghai, July 2019.

“Agreement and Disagreement in a Non-Classical World,” keynote talk at LFDSN 2019, Zhejiang University, Hangzhou, May 2019.

“Agreement and Disagreement in a Quantum World,” invited talk at Encapsulated Agents in Quantum Theory: Re-examining Wigner’s Friend, workshop, UMass Boston, March 2019.

“Using Proof-of-Work to Coordinate,” keynote talk at the 8th China International Conference on Game Theory and Its Applications, University of Shanghai for Science and Technology, September 2018.

“Strategy Needs Creativity,” distinguished scholar lecture at Southern University of Science and Technology, Shenzhen, June 2018.

“Strategy Needs Creativity,” leadership workshop at Schwarzman College, May 2018.

“Epistemic Game Theory,” Tsinghua University, May 2018.

“Strategy Needs Creativity,” keynote talk at 2017 Global Cre8 Summit, Shenzhen, December 2017.

“Where Do Great Strategies Really Come From?” *Strategy Science* workshop, Apple University, September 2017.

“Epistemic Game Theory” and “Normalization Models: Normative Foundations,” NYU Neuroeconomics Summer School, NYU Shanghai, July 2017.

“Strategy from Creativity,” keynote talk at AMT Quarterly Partners Summit, Shanghai, April 2017.

“The Father of Singularity: A Case Study in Creativity and Innovation,” public talk, East China Normal University, March 2017.

“Mentoring,” invited talk at Entrepreneurs’ Organization Accelerator APAC Mentorship Summit, Shanghai, February 2017.

“Your Idea Is, Of Course, Crazy,” keynote talk at Global Cre8 Summit, Shenzhen, October 2016.

“Epistemic Game Theory: Language and Observation,” public talk, NYU Shanghai, October 2015.

“Entropy and Simulation of No-Signaling Models,” inaugural lecture at Institute for Quantum Social and Cognitive Science, University of Leicester, October 2015.

“Entropy and Simulation of No-Signaling Models,” at Logic Colloquium 2015, University of Helsinki, August 2015.

“Game Theory,” NYU Shanghai Neuroeconomics Summer School, NYU Shanghai, July 2015.

“Formal Methods,” keynote talk at Vienna Conference on Strategy, Organizational Design, and Innovation, University of Vienna, June 2015.

“Epistemic Game Theory: Language and Observation,” at 8th Pan-Pacific Conference on Game Theory, Academia Sinica, Taiwan, May 2015.

“Deriving the Qubit from Entropy Principles,” at Conference on Quantum Probability and the Mathematical Modelling of Decision Making, Fields Institute, University of Toronto, March 2015.

“Deriving the Qubit from Entropy Principles,” at Workshop on Correlated Information Change, University of Amsterdam, November 2014.

“Epistemic Game Theory,” at 2014 China Meeting of the Econometric Society, Xiamen University, China, June 2014.
